

Technical Data Sheet

Product: Halyomorpha halys

Code: PH-611-1RR

Product Function: Monitoring

Description: This product is a pheromone lure for Brown marmorated stink bug.

Latin Name: *Halyomorpha halys*.

Active Ingredients: Methyl (E,E,Z)-2,4,6-decatrienoate, murgantiol.

Longevity: 10 - 12 weeks.

Dispenser: Two parts to be used together.

Packaging: Blister pack

Trap Application:

Remove lures from the package and attach to the black sticky trap. Place traps and lures about 2 metres above ground. They can be attached to tree branches or onto posts.

When to Use:

Before the emergence of the first generation until the end of the season from June to November in North Europe.

Trap Density:

Use 1 trap every 30m around the border of crops and 1 trap per 1000m² within target crops. In urban areas, ports and garden pots, use one trap per site.

Replacement:

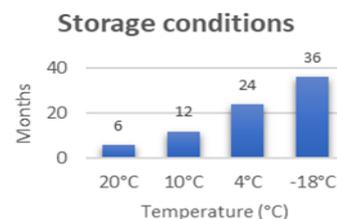

Replace every 10 - 12 weeks or as recommended by your agricultural authority. Remove old pheromone dispensers and dispose of away from the monitoring area.

Suitable Traps:

Black sticky traps are used with the pheromone lures for routine monitoring, as they have a lower catch of non-target species than coloured sticky traps. Pheromone lures may also be used with black pyramid or light traps.

Store in a cool, dry place out of direct sunlight.

- When stored in a cold room of 10-20°C, this product will last 6 months.
- When stored in a refrigerator of 4-9°C, this product will last 12 months.
- When stored in a freezer at -18°C, this product will last for 24+ months.

Precautions

- Handle carefully, avoid extensive contact by hand and wear gloves when handling.
- Do not eat or drink while handling this product.
